

REGULATIONS - 2012 MBA Programme

NOTE: The regulations hereunder are subject to amendments as may be decided by the Academic Council of the Institute from time to time. Any or all such amendments will be effective from such date and to such batches of students (including those already in the middle of the programme) as may be decided by the Academic Council.

1. Conditions for Admission

Students for admission to the M. B. A. degree programme will be required to satisfy the conditions from time to time of admission thereto prescribed by the Anna University, Chennai and Government of Tamil Nadu.

2. Duration of the Programme

i. Minimum Duration: The programme will lead to the Degree of Master of Business Administration (M.B.A.) of the Anna University, Chennai and extend over a period of two Academic years consisting of four semesters.

ii. Maximum Duration: The student shall complete all the passing requirements of the M. B. A. degree programme within a maximum period of 4 years / 8 semesters, these periods being reckoned from the commencement of the semester to which the student was first admitted.

3. Structure of the Programme

- i. Curriculum:** The curriculum for the programme includes theory courses (including electives), practicals, internship, project etc with detailed syllabi prescribed by the Board of Studies from time to time.
- ii. Specialization and Electives:** Every student shall opt for dual specialization (each specialization carrying 3 elective courses) in consultation with the Head of the Department.
- iii. Value added / Certificate courses:** Students can opt for any one of the Value added courses offered by the School of Management Studies. A separate certificate will be issued on successful completion of the course.
- iv. Special self study elective:** Students can opt for the special self study elective(s) during the III semester. The grade obtained shall not be less than grade "C". The grade obtained will be indicated in the mark sheet, but will not be accounted for CGPA.
- v. Summer Internship:** Every student shall undertake a suitable Summer Internship in the summer vacation, between second and third semester, for duration of six weeks, in consultation with the faculty supervisor and the Head of the Department. Report of the Summer Internship is to be submitted by the students within 15 days from the commencement of the third Semester.
- vi. Project:** Every student shall undertake a Project Work in the fourth semester in consultation with the faculty supervisor and the Head of the Department. The Project Work shall be undertaken in an industrial / research organization or in the college in consultation with the faculty supervisor and the Head of the Department. In case of Project Work at industrial / research organization, the same shall be jointly supervised by a faculty supervisor and an expert from the organization.
- vii. Credit assignment:** Each course is normally assigned a certain number of credits. 15 hours of lecture will be assigned 1 credit. 4 credits for Summer Internship, 12 credits for the Project and viva voce will be assigned.

viii. Minimum credits: For the award of the degree, the student shall earn a minimum number of total credits as prescribed by the Board of Studies and by passing the prescribed courses of study as given in clause 3 (i) and clause 9.

4. Requirements for the Completion of Study of a Semester

i. A student will be deemed to have completed the requirements of study of any semester only if he / she has kept not less than 70% of attendance in each course and at least 80% of attendance on an average in all the courses put together in that semester.

However, a student who has secured attendance between 70% & 79% in the current semester due to medical reasons (hospitalization/accident/specific illness) or due to participation in College / University / State / National / International level sports events with prior permission from the Principal shall be given exemption from the prescribed attendance requirements and he/she shall be permitted to appear for the current semester examinations.

ii. His/ her progress has been satisfactory and

iii. His/ her conduct has been satisfactory.

5. Assessment and Passing Requirements

i. Assessment: The assessment will comprise continuous assessment and the final examination, carrying marks as specified in the scheme in clause 9 and 10. Continuous assessment will be made as per the guidelines framed by the College from time to time. All assessments will be done on absolute marks basis. However, for the purpose of reporting the performance of a student, letter grades and grade points will be awarded as per clause 5 (v).

ii. Final examinations: Final examinations will normally be conducted at the end of the semester. Supplementary examinations may be conducted at such times as may be decided by the College. A student will be permitted to appear for the final examination of a semester only if he / she has completed the study of that semester satisfying the requirements given in clause 4 and registered simultaneously for the examinations of the highest semester eligible and all the courses which he / she be in arrears of.

A student, who is not permitted to appear for the final examination of a semester, is not permitted to proceed to the following semester.

A student who is not permitted to appear for the final examination of any semester has to register for and redo the courses of that semester at the next available opportunity.

iii. Rejoining the programme: A student who has not completed the study of any semester as per clause 4 or who is allowed to rejoin the programme after a period of discontinuance or who on his / her own request is permitted to repeat the study of any semester, may join the semester which he / she is eligible or permitted to join, only at the time of its normal commencement for a regular batch of students and after obtaining the approval from the Anna University, Chennai if required. No student will however be enrolled in more than one semester at any time. In the case of repeaters, the earlier continuous assessment in the repeated courses will be disregarded.

iv. Summer Internship and Project: Every student shall submit the reports on Summer Internship and the Project Work on dates announced by the college / department through the faculty supervisor to the Head of the Department. If a student fails to submit the reports on the Summer Internship or the Project Work on or before stipulated due date, he/she is deemed to have failed in it.

Every student shall present reports/papers in seminars in the relevant semester about the Summer Internship and the Project and shall be presented before a review committee constituted by the Head of the Department.

The Summer Internship and the Project will be evaluated based on the reports/papers presented and viva-voce examinations

In case of Summer Internship, evaluation will be carried out in the third semester by a team of internal examiners appointed by the Head of the Department and the results of the same will be included along with the other courses of that semester

For the Project, the viva-voce examination will be carried out by a team consisting of an internal examiner, usually the faculty supervisor, and an external examiner, appointed by the Principal. Due weightage will be given to the publications arising out of the project work during the evaluation of the Project.

A student who fails in the Summer Internship / Project shall register for redoing the same at the beginning of a subsequent semester.

v. Letter grade and grade point: The letter grade and the grade points are awarded based on percentage of total marks secured by a student in an individual course as detailed below:

Range of Percentage of total marks	Letter grade	Grade Point (g)
90 to 100	S	10
80 to 89	A	9
70 to 79	B	8
60 to 69	C	7
55 to 59	D	6
50 to 54	E	5
0 to 49 or less than 50 % in final examination	RA	0
Incomplete	I	0
Withdrawal	W	0

“RA” denotes Reappearance.

“I” denotes incomplete as per Clause 4 and hence prevented from appearing for final examination

“W” denotes withdrawal from the examination.

After the completion of the programme, the Cumulative Grade Point Average (CGPA) for all the four semesters put together is calculated using the formula:

Where

$$CGPA = \frac{\sum g_i c_i}{\sum c_i}$$

- g_i - Grade point secured corresponding to the course.
- c_i - Credit allotted to the course.

vi. Passing a course:

A student who secures a minimum of 50% marks in the end semester examination of a course and a minimum Grade point 5 with internal assessment and end semester examination put together will be declared to have passed that course.

A student, who absents or withdraws or is disqualified to appear or secures a letter grade RA (Grade Point 0) or less than 50% in the end semester examination in any course carrying Internal assessment and end semester examination Marks, will retain the already earned Internal Assessment Marks for two subsequent attempts only of that course and thereafter he / she will be solely assessed by end semester examination marks.

A student who is absent in the end semester examination of a course after registering for the same will be considered to have appeared and failed in that examination and awarded the grade RA.

6. Qualifying for the Award of Degree

A student will be declared to have qualified for the award of the Degree of Master of Business Administration provided

- (i) He / she has successfully completed the course requirements and has passed all the prescribed courses of study as per the programme structure.
- (ii) No disciplinary action is pending against the student.

7. Classification of Degree

(i) First Class with Distinction: A student who qualifies for the award of degree vide clause 6 having passed all the courses of all the semesters at the first opportunity within four consecutive semesters after the commencement of his/her study and securing a CGPA of 8.5 and above shall be declared to have passed in First Class with Distinction. For this purpose the withdrawal from examination (vide clause 8) will not be construed as an opportunity for appearance in the examination.

(ii) First Class: A student who qualifies for the award of degree vide clause 6 having passed all the courses of all the semesters within a maximum period of six consecutive semesters after commencement of his/her study and securing a CGPA of 6.50 and above shall be declared to have passed in First Class.

(iii) Second Class: All other students who qualify for the award of degree vide clause 6 shall be declared to have passed in Second Class.

8. Withdrawal from Examination

A student may, for valid reasons, be granted permission to withdraw from appearing for the examination in any course or courses of only one semester examination during the entire duration of the degree programme. Also, only one application for withdrawal is permitted for that semester examination in which withdrawal is sought.

Withdrawal application shall be valid only if the student is otherwise eligible to write the examination and if it is made prior to the commencement of the semester examinations and also recommended by the Head of the Department and the Principal.

Withdrawal shall not be construed as an opportunity for appearance in the examination for the eligibility of a student for First Class with Distinction.

9. Scheme of Assessment:

Sessional Scheme of Evaluation to be followed from I semester of 2012-2013 batch onwards is as given below

a) THEORY

S.No	Criteria	Marks
i.	Internal Assessment	50
	Test I	10
	Test II- Objective Type	10
	Model Exam	20
	Innovative practice (Assignment or Open Book test / Surprise test / Seminar / Term Paper / Discussion & Class Participation / Concept viva / Co-curricular Activities)	10
ii.	End Semester Examination	50
	Total Marks	100

b) PRACTICAL

S.No	Criteria	Marks
i.	Internal Assessment	50
	Record	10
	Test – I	10
	Model Exam	20
	Assignment /Seminar / Innovative Practices /10 objective type questions for every practical topic	10
ii.	End Semester Examination	50
	Total Marks	100

c) YOGA AND MEDITATION

Criteria	Marks
Continuous Evaluation 1	25
Continuous Evaluation 2	25
Final Evaluation	50
Total Marks	100

d) SUMMER INTERNSHIP

Criteria	Marks
Review of weekly reports	10
Mid review	15
Report	25
Viva voce	50
Total Marks	100

e) PROJECT AND VIVA VOCE

S.No	Criteria	Marks
i)	a. Review 1 and 2 (50 marks each)	100
	b. Continuous Evaluation	
	• Identification of problem	10
	• Literature Survey and Analysis	15
	• Approach and Progress	25
	• Findings, Discussion and Conclusion	25
	• Final Report Presentation	25
ii)	Final Examination (includes Report & Viva Voce)	200
Total Marks		400

(For awarding Grades the total marks of 400 will be reduced to 100)

f) COMPREHENSIVE VIVA VOCE

S.No	Criteria	Marks
i)	Internal Examiner	50
ii)	External Examiner	50
Total Marks		100

12MB11 MANAGERIAL ECONOMICS

4 0 0 4

Objectives

- To give an insight into demand and supply analysis, forecasting and decision making.
- To provide students with a basic understanding of various Market structures.
- To provide students with a basic understanding of the Macro Economic concepts and Indian Government's Stabilization policies.

Course Outcomes

- Analyze the economic environment for creating a favourable impact on business entities.
- Apply the economical concepts in day to day running of business.
- Able to apply the economic knowledge gained for developing strategies.

Skill sets

- Skill of taking right decisions considering the environmental factors.
- Workout and develop strategies according to the demand, supply and market structure.
- Analyze the impact of inflation in business and taking appropriate decisions and manage the ups and downs of business cycle
- Effective allocation of resources.

UNIT - I

Introduction

Objectives of Organizations, Business Decision Making, Production Possibility Curve, Opportunity Cost, Marginal Analysis, Economy & Diseconomy of scale.

Stake holder's welfare maximization

11 Hours

UNIT - II

Demand and Supply

Demand Function, Law of Demand, Demand Shift, Elasticity of Demand, Demand Forecasting, Supply Function, Law of Supply, Supply Shift, Equilibrium price determination.

Barometric Indicators

12 Hours

UNIT - III

Market Structure

Market Structure; Perfect Competition, Monopoly, Monopolistic Competition, Oligopoly.

Non-Price Competition

12 Hours

UNIT – IV

National Income

Circular flow of Income and Expenditure, Measurement of National Income, GNP, GDP, Per-Capita Income, Alternate approaches to Measurement of Well being.

Gini Co-efficient

12 Hours

UNIT – V

Economic Indicators

Price Indices, Inflation, Employment Rate, Prices and Wages, Deflation, Business Cycle and Stabilization Policies, Limitations and Effectiveness of monetary and Fiscal policies, Budget.

Economical aspects of Taxation

13 Hours

Total: 60 Hours

12MB12

DATA ANALYSIS FOR DECISION MAKING

3 1 0 4

Objectives

- To enable the students to have an insight into basic statistical techniques.
- To gain an understanding about hypothesis testing, using tools such as Z test, F test, ANOVA, chi-square tests, regression & correlation analysis and non parametric tests.
- To enable the students to draw conclusions from the analyses for better decision making.

Course Outcomes

- Able to analyze the collected information using descriptive and inferential statistics to interpret the collected data.
- Able to use univariate and bivariate statistical tools for analysis of collected data.
- Able to apply non-parametric test for drawing meaningful conclusions.

Skill sets

- Interpret the collected data using statistical tools and establish statistical significance.
- Forecast the future sales / profit and other variables using correlation and regression.
- Test the significance of variation using z and t test for arriving at meaningful conclusions.
- Use non-parametric test for deriving inferences for decision making.

UNIT - I

Introduction:

Population Parameters, Sample Statistics, Point and Interval Estimation

Descriptive Statistics

Measures of Central Location - Mean, Median, Mode, Percentiles and Quartiles, Measures of Variability-Range, Inter-Quartile Range, Variance, Standard Deviation, Measures of Relative Location and Detection of Outliers, Z-Scores. Frequency and Relative Frequency Distributions, Cumulative Frequency and Cumulative Relative Frequency Distribution.

Pie chart

12 Hours

UNIT - II

Experiments and Sample Space

Experiment and Sample Space, Events and Operations with Events, Basic Probability Rules, Probability of an Event, Binomial Distribution, Normal Distribution.

Random numbers

12 Hours

UNIT - III

Correlation and Regression

Dependent vs. Independent Variables, Concept of Bivariate Data, Correlation Coefficient (Pearson and Spearman's Rank Correlation), Interpretation of Covariance, Simple Linear Regression.

Spurious correlation

12 Hours

UNIT - IV

Parametric Tests

z- Test, t-test (One Sample and Two Sample) and ANOVA (One Way) – Basic computation.

Level of significance

12 Hours

UNIT - V

Non Parametric Tests

Chi-Square Test: Goodness of Fit Test, Test of Independence of Attributes, Mann-Whitney U Test, Wilcoxon Rank sum Test and Kruskal-Wallis Test.

Parametric vs. Non Parametric tests

12 Hours

Total: 45+15 Hours

12MB13

ORGANIZATIONAL BEHAVIOUR

4 0 0 4

Objectives

- To enable the students to comprehend the contemporary organizational behavior theories.
- To help them understand methods of motivating and rewarding individuals and groups.
- To familiarize the students with organizational culture and help them to manage change.

Course Outcomes

- Able to apply behavioural theories for managing employee's behaviour.
- Able to analyze what motivates employees and adopt appropriate motivation strategies.
- Able to initiate, manage and implement changes in organization.

Skill Sets

- Influence and moderate the work behaviour of different personalities.
- Solving complex issues by adopting proper conflict management styles.
- Develop a conducive organizational culture.
- Acting as a change agent and implement changes in organization.

UNIT - I

Introduction

Meaning and Importance of Organizational Behaviour (OB), Contributing Disciplines, Challenges and Opportunities for OB, Personality: Determinants and Attributes, Values and Attitudes, Components and Functions of Attitudes.

Locus of control

12 Hours

UNIT - II

Motivation and Group Behaviour

Motivation, Basic Concepts, Motivation Theories, Problems in Motivation, Group Dynamics, Types of Groups, Group Norms and Cohesiveness, Group Roles.

Self actualization

12 Hours

UNIT – III

Employment Relationship and Conflict Management

Employment Relationship and Career Dynamics, Conflict Process, Sources of Conflict, Structural Approach to Conflict Management, Resolving Conflict through Negotiation

ZOPA

12 Hours

UNIT - IV

Organizational Culture

Organizational Culture, Elements of Organizational Culture, Organizational Culture and Performance , Changing and Strengthening Culture , Organizational Socialization.

Globalization and culture

12 Hours

UNIT - V

Organizational Dynamics

Organizational change – Forces for change, Resistance to change, Overcoming resistance to change, Change agents. Organizational Development, Organizational Development intervention.

Implementing change

12 Hours

Total: 60 Hours

12MB14

FINANCIAL AND MANAGEMENT ACCOUNTING

3 1 0 4

Objectives

- To acquaint the students with the fundamental principles of accounting.
- To enable the students to read and understand Financial Statements.
- To enhance the knowledge of students in Costing, Budgeting and Marginal costing techniques.

Course Outcomes

- Capable of analyzing and interpretation of income statement and Balance sheet.
- Able to apply appropriate financial analysis tool to make effective financial decisions.
- Capable of applying budgetary control and Cost Volume Profit analysis tools as a controlling technique.

Skill Sets

- Preparation of Final Account statements applying GAAP.
- Compute and use various ratios to measure financial strength of a company through inter and intra firm comparisons.
- Scientifically apportion the overheads and other costs across various products.
- Decide on the product mix, make or buy, accept or reject criterion.

UNIT - I

Introduction

Introduction, Meaning, Branches and Objectives of Accounting, Concepts and Conventions of Accounting, GAAP, An Overview of Journal, Ledger, Trial Balance, Preparation of Trading and Profit & Loss Account and Balance Sheet.

Depreciation

13 Hours

UNIT - II

Financial Statements

Financial Statements, Characteristics, Limitations, Financial Statement Analysis, Methodical Classification, Ratio Analysis, Fund Flow Statement and Cash Flow Statement (Basic problems)

Share holder ratios

13 Hours

UNIT - III

Cost Accounting

Cost Accounting, Meaning and Objectives, Classification and Elements of Costs, Cost Apportionment, Preparation of Cost Sheet, An Overview of Activity Based Costing.

Opportunity cost

11 Hours

UNIT - IV

Budget and Budgetary Control

Budget and Budgetary Control, Cash Budget, Functional Budgets and Flexible Budget.

Zero based budgeting

12 Hours

UNIT - V

Break Even Analysis

Cost Volume Profit Analysis, Break Even Analysis, Application of Marginal Costing Techniques in Managerial Decision Making.

Multi product firm and BEP

INFORMATION TECHNOLOGY FOR MANAGERS

4 0 0 4

Objectives

- To provide students with a basic understanding of various Management Information Systems in the functional areas.
- To familiarize the students with Enterprise Resource Planning.
- Enable the students to gain an understanding about development of MIS and its implementation across the organization.

Course Outcome

- Capable of analyzing and interpreting the outcome of “What If Analysis”.
- Able to apply various business process models.
- Able to design a suitable information system.

Skill Sets

- Select the best alternative with the help of Executive Information System.
- Trace the sensitive variables in Decision Making Process.
- Prepare a Process Model for various business functions.
- Develop a prototype information system.

UNIT - I

Foundation Concepts

Components of Information System – Resources – Activities - Types of Information System: Operations Support Systems - Management Support Systems - Strategic Information System and Other Classifications - Strategic Uses of Information Technology.

ITES

10 Hours

UNIT - II

Management Information Systems

Functional Business Systems: Marketing – Manufacturing - Human Resource – Accounting - Financial Management Systems. Decision Support Systems - What if Analysis - Sensitivity Analysis - Executive Information Systems - Knowledge Management Systems.

Artificial Intelligence

14 Hours

UNIT - III

Enterprise e – Business Systems

Enterprise Resource Planning

Evolution – Commercial and Open ERP – ERP software development methods -Modules – Selection of ERP Vendors – Implementation – Costs involved – Process Modelling – Business process re-engineering.

Various ERP Packages

14 Hours

UNIT – IV

e-Commerce

Definition – Concepts - Scope – Framework - Business Models – Business on the Internet: Placement – Merchandise – Audience size – Presentation – Payment – Security – Fulfillment

Business model of Amazon.com

12 Hours

UNIT - V

Developing Business / IT Solutions

Systems Development Life Cycle, Prototyping, System Analysis, Systems Design, Implementation.

Software Testing

12MB16

LEGAL ASPECTS OF BUSINESS

4 0 0 4

Objectives

- To instill in the students an awareness of legal framework within which the businesses function.
- To understand the basics of various Direct and Indirect Tax regimes and their implications.
- To gain an insight into Consumer Protection Act and Cyber Law.

Course Outcomes

- Capable of handling the legal issues faced by the organizations.
- Able to deal with various government bodies on legal issues.
- Able to incorporate companies.

Skill Sets

- Develop an agreement for entering into contract.
- Creating legal documents pertaining to business dealings by organizations.
- Deal with issues relating to incorporation of companies.
- Calculation of various taxes.

UNIT - I

Law of Contract

Law of Contract, Meaning and Essentials of a Valid Contract, Proposal and Acceptance, Consensus Ad Idem, Free Consent, Capacity, Consideration, Performance of Contract, Discharge and Remedies for Breach.

Draft contract

12 Hours

UNIT - II

Sale of Goods

Law of Sale of Goods, Definition and Essentials of a Contract of Sale, Goods and their Classification, Price, Passing of Property in Goods, Transfer of Title by Non Owners, Performance, Unpaid Seller and his Rights, Remedies for Breach.

Caveat emptor

12 Hours

UNIT - III

Negotiable Instruments Act

Negotiable Instruments Act, Definition of Promissory Note, Cheque and Bill of Exchange, Holder for Value and Holder in Due Course, Types of Negotiation, Rights and Duties of Collecting and Paying Bankers, Forgery

Imprisonment

12 Hours

UNIT - IV

Companies Act

An overview of Types of firm ownership, Companies Act, Incorporation, Types of Companies, Articles and Memorandum of Association, Prospectus, Borrowing Powers of the Company, Board of Directors .

Auditors Meeting

12 Hours

UNIT - V

Taxes

Direct taxes, Corporate tax, Indirect Taxes, Sales Tax, Service Tax, Value Added Tax(VAT), Goods and Services Tax (GST), Customs and Excise Duties, Concepts and Applicability. Consumer Protection Act

Introduction to Cyber Law

12 Hours

Total: 60 Hours

12MB17

EXECUTIVE COMMUNICATION

0 0 4 2

Objectives

- To enable the students to exhibit effective written and oral communication skills in business situations.
- To help them draft and deliver the message by understanding purpose, analyzing audience, selecting appropriate channel and medium.
- To create an awareness about the body language as the corner stone of reflecting one's attitude.

Course Outcomes

- Will be in a position to distinguish between positive, neutral and negative messages and create one based on the situation.
- Know the essentials of effective writing and prepare powerful reports and proposals.
- Will show better attitude by displaying proper body language and effective listening.

Skill sets

- Draft positive, neutral and negative messages.
- Make effective oral presentations.
- Prepare reports and draft intra organizational correspondence like memos, notices and agenda.
- Exhibit appropriate kinesics for building effective inter-personal relationships.

UNIT - I

Written Communication

Writing Business Letters (Real life corporate scenario) and Developing Messages, Neutral and Positive Messages, Negative and Persuasive Messages, email etiquettes, press release.

Sales letters

12 Hours

UNIT - II

Verbal Communication

Verbal Communication and Presentation Skills (Real life corporate scenario), Listening Techniques.

Barriers in listening

12 Hours

UNIT - III

Communication in Organizations

Memos, Notice, Agenda, Minutes Documentation (Real life corporate scenario), Writing Reports and Proposals.

Research reports

12 Hours

UNIT - IV

Non-Verbal Communication

Body Language - Kinesics, Oculistics, Facial Expressions, Gestures, Postures, Proxemics, Haptics, Paralanguage.

Cross Cultural Spatial Relationships

12 Hours

UNIT - V

Case Presentation

12 Hours

Total: 60 Hours

12MB18 YOGA AND MEDITATION

0 0 2 0

Objectives

- To impart harmony between the human body, Mind, soul and nature.
- To improve the life style of a Person by enhancing the personality.
- To imbibe the ability to practice Yoga and meditation lifelong.

UNIT - I

Yoga and Physical Health

Physical structure of human body, Simplified physical exercises: Hand, leg, neuromuscular breathing, Eye, Kabalpathi, Maharasana (part I and II), Massaging, Acupressure and relaxation.

6 Hours

UNIT - II

Art of Nurturing life force and Mind

Maintaining youthfulness, Sex and Spirituality, Ten Stages of Mind, Mental frequency.

6 Hours

UNIT - III

Sublimation

Purpose of life, Analysis of Thought, Moralization of Desire, Neutralization of Anger.

6 Hours

UNIT - IV

Human Resource Development

Eradication of Worries, Self realization, Benefits of Blessings, Greatness of Friendship, Individual Peace.

6 Hours

UNIT - V

Law of Nature

Cause and effect system, purity of Thought and Deed, Love and Compassion, Cultural values.

6 Hours

Total: 30 Hours

12MB21

DECISION MODELS AND MANAGEMENT SCIENCE

3 1 0 4

Objectives

- To enable the students to have an insight into basic linear programming.
- To enable the students to understand operations research techniques in business operations.
- To enable the students to become more analytical for solving real life problems.

Course outcomes

- Able to apply LPP for profit maximization and cost minimization.
- Able to apply transportation and assignment technique for optimization.
- Able to apply the queuing model and replacement model for enhancing operational efficiency.

Skill sets

- Identify the optimal mix to maximize profit or minimize cost.
- Minimizing the cost by identifying the shortest route and manage the cost efficiency by applying replacement models.
- Select the best alternative among the feasible alternatives.
- Optimization of resources using appropriate waiting line model.

UNIT - I

Linear Programming

Linear Programming, Formulation, Solving LPP: Graphical method, Simplex method.

Introduction to DEA

13 Hours

UNIT - II

Transportation and Assignment

Transportation and assignment models: Transportation problems-North-West Corner Solution, Least cost, Assignment Problem: Hungarian method.

Travelling salesmen

11 Hours

UNIT - III

Network Techniques

Introduction- Phases of project management, Guidelines for network construction-Critical Path Method-CPM float calculations-PERT analysis.

Network components

13 Hours

UNIT - IV

Decision Theory

Decision making under risk, Expected Monetary Value approach, Decision Trees.

Decision making under uncertainty

12 Hours

UNIT - V

Waiting line models

Waiting line models: Features and Terminologies, Solution to the practical problems on (M/M/1): (FCFS / ∞ / ∞) model.

Queuing theory

11 Hours

Total: 45+15 Hours

12MB22 PRODUCTION MANAGEMENT

3 1 0 4

Objectives

- To introduce students to Operations terminology and concepts.
- To enable the students to comprehend the important aspects like production layout, production planning and inventory management.
- To enable the students to understand the utility of work measurement techniques.

Course Outcomes

- Able to solve the issues involved and tasks to be performed for production planning.
- Able to design plant layout for ergonomics.
- Able to plan for inventory requirements and management.

Skill sets

- Selecting the right location, right layout and planning for right capacity in establishing a plant.
- Preparation of Master production schedule and perform Materials requirements planning.
- Use appropriate inventory management techniques for better and hassle free inventory control.
- Capable of undertaking time study and use the results to increase the productivity of the workers.

UNIT - I

Introduction

Production and Operations Management: Need, Objectives, Evolution and Functions of Production Management. Production Systems and Characteristics: Job, Batch, Mass, Continuous Flow, Group technology
Cellular manufacturing

11 Hours

UNIT - II

Production Layout

Facility Layout: Product, Process Layout, Cellular Layout, Fixed Position Layout. Line Balancing (Problem), Location Decision: Factors Affecting Location Decision.
Centre of gravity model

12 Hours

UNIT - III

Process Planning

Process Planning: Characteristics and Functions, Aggregate planning: Definition, Methodology. Master Production Schedule, Material Requirement Planning, Capacity Requirement Planning: Methodology. Manufacture Resource Planning (MRP) II.
Product tree

13 Hours

UNIT - IV

Inventory Management

Independent Demand model: Economic Order Quantity (EOQ) Model (problems). Types of Inventory control - P System, Q System, Techniques of Inventory control: ABC Analysis (problem), Just in Time (JIT), KANBAN.
Andons

13 Hours

UNIT - V

Work Measurement Techniques

Work Measurement Techniques: Time Study, Method, Time Measurement (MTM), Work Sampling (problems), Lean Manufacturing: 7 Wastes, Single Piece Flow, Single Minute Exchange of Die (SMED).
Motion study

11 Hours

Total: 45+15 Hours

12MB23

MARKETING MANAGEMENT

4 0 0 4

Objectives

- To gain an insight on the impact of marketing environment on the marketing strategies adopted by the business organizations.
- To understand STP (Segmentation, Targeting, Positioning) in marketing and Buyer Behaviour
- To give a detailed insight into the 4Ps of Marketing.

Course Outcomes

- Able to develop a product and brand the same.
- Able to price the products keeping the competition and other factors in mind.
- Design suitable advertisement and promotional strategies.

Skill sets

- Gain the skill to assess and respond to the impact of external environmental factors by formulating appropriate marketing strategies.
- Acquire the skill of drafting a segmentation statement and select appropriate positioning strategy.
- Assess understand and influence purchase behavior of individual and organizational consumers.
- Gain the skill of developing and price new products that meet customer needs.

UNIT - I

Introduction

Marketing – Marketing Management – Core concepts - Marketing of Services - Philosophies of Marketing Management – The Marketing Environment.

Green Marketing

10 Hours

UNIT - II

STP and Buyer Behaviour

Market Segmentation: Levels – Importance – Procedures - Bases for Segmentation – Targeting Strategies – Positioning: Differentiation Strategies - Positioning Strategies - Individual Buyer Behaviour: Model - Buying Decision Process - Buyer Roles - Buying Influences - Organizational Buyer Behaviour: Process - Major influences.

Demographic profiling

14 Hours

UNIT – III

4 Ps of Marketing – Product

Product Classification - Product Levels – Product Hierarchy - New Product Development: Process - Adoption Process - Product Life Cycle – Branding: Brand Name Decision - Brand Strategy Decision.

Brand identity prism

12 Hours

UNIT – IV

4 Ps of Marketing – Pricing, Place

Pricing: Methods - Initiating Price Changes - Responding to Price Changes. Marketing Channels: Channel Functions - Channel Levels - Channel Design Decisions - Channel Management..

Value Delivery Network

14 Hours

UNIT - V

4 Ps of Marketing – Promotion

Marketing Communication: Process - Developing Effective Communications - Advertising - Developing effective Advertising Programs - Forms of Advertising – Appeals - Sales Promotion.

DAGMAR

FINANCIAL MANAGEMENT

3 1 0 4

Objectives

- To enable the students to understand the concepts of Financial Management.
- To understand the concepts and techniques of Capital Budgeting, Working Capital Management and Dividends.
- To throw light on the significance of Cost of Capital for deciding the Capital Structure.

Course Outcomes

- Capable to apply appropriate Capital Budgeting Techniques.
- Able to apply appropriate Capital Structure and Dividend Policy for optimal risk return trade-off.
- Capable of applying different Working Capital policies to improve liquidity.

Skill Sets

- Apply the outcome of capital budgeting for managerial decision making under capital rationing.
- Apply operating and financial leverages to strike a fine balance between shareholders' and lenders' interests.
- Scientifically estimate the weighted average cost of capital for maximizing the firms profits.
- Estimate and decide the various sources of working capital.

UNIT - I

Introduction

Financial Management: Functions, Goals, Time Value of Money, Future Value and Present Value of Money.

Annuity

10 Hours

UNIT - II

Principles of Capital Budgeting

Principles and Nature of Capital Budgeting, Evaluation Techniques: Payback Period, Accounting Rate of Return, Net Present Value, Internal Rate of Return, Profitability Index.

Project selection under Capital Rationing

13 Hours

UNIT - III

Cost of Capital and Capital Structure

Concept of Cost of Capital, Measurement of Specific Costs and Overall Cost of Capital, Factors Determining Capital Structure, Operating and Financial Leverage .

Hurdle Rate

13 Hours

UNIT - IV

Dividend Theory

Dividend Theory, Dividend Policy, Determinants of Dividend Policy, Forms of Dividend.

Dividend yield

13 Hours

UNIT -V

Principles of Working Capital

Principles and Determinants of Working Capital, Operating Cycle, Estimation of Working Capital.

GMC vs. NNC

HUMAN RESOURCE MANAGEMENT

4 0 0 4

Objectives:

- To familiarize the students with HR functions and contemporary HR practices.
- To help the students in understanding training requirements and appraise the performance of employees.
- To enable the students to understand the challenges in IHRM.

Course outcomes

- Able to create HR policies.
- Able to design training programs and evaluate the effectiveness of the training program.
- Able to deal with multi cultural workforce.

Skill sets:

- Developing job description and specification format.
- Selecting right recruitment techniques depending on the job profile.
- Preparing performance appraisal reports and appropriate incentive schemes.
- Working with diverse groups.

UNIT - I

Introduction

Nature and Scope of Human Resource Management (HRM), Meaning and Definition of HRM, Objectives and Functions of HRM, Models of HRM, HRM in the changing environment.

HRIS

10 Hours

UNIT - II

Human Resource Planning

Human Resource Planning, Job Analysis, Job Description, Job Specification, Recruitment, Selection, Induction, Placement.

Referrals

12 Hours

UNIT - III

Training and Development

Training and Development, Principles of Learning, Objectives, Training need Analysis, Training Methods, Management Development: Meaning, Scope, Objectives and Methods.

Training evaluation methods

13 Hours

UNIT - IV

Performance Management and Reward

Performance Appraisal, Process, Methods, Factors that Distort Appraisal, Wage and Salary Administration, Principles and Techniques of Wage Fixation, Job Evaluation, Incentive Schemes.

Carrot and stick approach

13 Hours

UNIT - V

International HRM

Domestic versus international Human Resource management, Perspective of International Human Resource Management.

Practices in International Human Resource management

12 Hours

Total: 60 Hours

RESEARCH METHODOLOGY IN MANAGEMENT

3 1 0 4

Objectives

- To introduce the concept of scientific research and the methods of conducting scientific enquiry.
- To familiarize students in the area of application of multivariate statistical tools in Business Research.
- To enable the students to prepare Business Reports and present them to top management for decision making.

Course Outcomes

- Able to pursue research on a scientific basis and select appropriate research design.
- Able to analyze the collected data using appropriate statistical tools for interpretation of the data.
- Able to present the research report adopting the right tools for enhancing the quality of presentation.

Skill sets

- Identify problem, define objectives and select suitable research design.
- Develop measurement tools and test for its validity and reliability.
- Collect data adopting appropriate methods and prepare the data for further analysis.
- Use multivariate tools for interpreting the data and prepare research reports.

UNIT - I

Types of Research and Research Design

Introduction to Research: Types of Research, Research Process, Problem Definition and Objective Formulation.
Research Design: Exploratory, Descriptive and Causal Research Design.

Post Facto Research

12 Hours

UNIT - II

Measurement and Scaling

Fundamentals of Measurement and Scaling: Measurement of Variables, Developing Scales, Validity Testing, Reliability Testing.

MDS

11 Hours

UNIT - III

Data Collection Methods and Sampling

Data Collection Methods: Primary Data Collection Methods, Guidelines for Questionnaire Design, Secondary and Special Data Collection Methods, Advantages and Disadvantages of various Data Collection Methods, Data Preparation: Editing, Coding, Transcribing, Data Cleaning. Sampling Techniques: Probability and Non-Probability Sampling Methods, Determination of Sample Size.

Hypothesis Development and Testing

14 Hours

UNIT - IV

Multivariate Statistical Techniques

Multivariate Statistical Techniques: Basic Theoretical Framework on Discriminant Analysis, Factor Analysis, Cluster Analysis, and Conjoint Analysis.

Bivariate Vs. Multivariate techniques

12 Hours

UNIT - V

Report Writing

Research Report: Basics of Written Report, Purpose, Contents, Graphical Presentation, Synopsis, Essence of Oral Presentation.

Executive summary

11 Hours

Total: 45+15 Hours

12MB27

BUSINESS APPLICATION SOFTWARE

0042

Objectives

- To familiarize students on the features of MS Word and Power Point.
- To enable the students to use Excel, Access and Tally in the area of critical evaluation and data base management.
- To enable the students to be proficient in applying SPSS in Business Research.

Course Outcomes

- Capable of creating a Word document effortlessly.
- Able to apply various excel features for data analysis and interpretation.
- Capable of analyzing the output generated by the Tally and SPSS packages for decision making.

Skill Sets

- Developing a Mail Merger for mass communication.
- Preparation of Business presentations using power point.
- Scientifically evaluate business data for decision making.
- Use ratio tools in Tally for interpreting financial results.
- Perform descriptive and inferential statistical tests using SPSS for efficient decision making.

UNIT – I

MS Word & Power Point

Word: Create, Modify and Save -Changing the Look of Text - Create, Apply and Edit Styles - Insert Comments, Footnote, Endnote & Bookmarks - Merge Documents – Tables - Sort Records - Use Pictures and Charts - Mail Merge, Generate Labels.

Designing booklets

PowerPoint: Creating Presentations, Apply Design Template, Slide Transitions, Custom Animation, Hyperlink, Speaker Notes, Print Handouts, and Screen Navigation Tools-

PPT to video conversion

12 Hours

UNIT – II

MS Excel

Excel: Create, Modify and Save a Spreadsheet, Appearance/ Format of Text and Numbers in Cells, Templates, Formatting Numbers, Computations in Cells, In Built Functions, Conditional Formats, Using Multiple Workbooks, Sorts, Data Filters, Pivot Table, Create and Modify Graphs and Charts-

Payroll calculation and budgeting

12 Hours

UNIT - III

MS Access

Access: Create Database, Table Relationship, Primary Key, Modify Field Properties, Find and Sort Records, Data Types, Create and Modify Forms, Enter Records Using Form, Delete Records From Table, Control Toolbox, Calculated Control, Apply and Remove Filters, Create Calculated Field , Create Report, Format Properties , Query –

Building customer database

12 Hours

UNIT - IV

Tally

An Overview of Accounting Package Tally - Creating Company, Masters, Ledgers, Vouchers - Recording Transaction: Receipt, Payment, Sales, Purchase, Contra, Credit Note, Debit Note - Report Generation-

Preparation of Accounting statements

12 Hours

UNIT – V

SPSS

Introduction: An Overview of SPSS,SPSS Environment, Preparation of Data Files, Data Screening, Data Transformation –Descriptive Statistics: Frequencies, Bar Charts, Histograms, Percentiles, Normal Distribution, Measures of Central Tendency, Dispersion, Skewness and Kurtosis, and Standard Error–Inferential Statistics: Chi-Square Analyses, t Test, One Way ANOVA, Non Parametric Tests equivalent to Parametric Tests -

Defining Variables and Building Data File

STRATEGIC MANAGEMENT

4 0 0 4

Objectives

- To help the students to learn the process of strategic decision making.
- To develop the capability of evolving strategies in competitive environments.
- To enable the students to have insight in implementation and control of strategic policies

Course Outcomes

- Apply the porter's five force model for business analysis.
- Use Mc Kinsey's 7S Frame Work to develop corporate strategies.
- Design organization structure to match the strategy.

Skill Sets

- Analyze and develop strategies for corporations.
- Evolve strategies to competitive environments.
- To gain insight in implementation and control of strategic policies.
- Focus on future to sustain and increase the market share.

UNIT - I

Introduction

Strategy: Strategic Management Process, Model of Strategic Management, Intended and Emergent Strategies, Strategic Leadership.

Strategic Decision Making

11 Hours

UNIT - II

Environmental Analysis

Porter's Five Forces Model, Strategic Groups, Competitive Changes during Industry Life Cycle, Resources, Capabilities and Competencies, Generic Building Blocks of Competitive Advantage.

Sustaining Competitive Advantage

13 Hours

UNIT - III

Strategies

Global and International Strategies, Corporate Strategies, Vertical Integration, Diversification, Strategic Alliances, TOWS, BCG, GE Matrix, Building and Restructuring the Corporation, Business Level Strategies, Functional Level Strategies.

Mc Kinsey's 7S Frame Work

12Hours

UNIT - IV

Organizational Structure and Control

Designing Organizational Structure, Strategy Implementation Process, Designing and Establishing Strategic Control System, Balanced Score Card Approach, Matching Structure and Control to Strategy.

Strategic Change

13 Hours

UNIT - V

Emerging Thoughts on Strategy

Exposure to Strategic thoughts, Competing for the Future , Blue Ocean Strategy.

Fortune at Bottom of the Pyramid

INTERNATIONAL BUSINESS MANAGEMENT

4 0 0 4

Objectives

- To enable the students to understand the fundamentals of International business.
- To provide competence to the students on making International business decisions.
- To enable the students to understand the financial and promotional assistance available for exporters.

Course Outcomes

- Able to take a business overseas having understood the intricacies of external market.
- Work on suitable external market entry strategies and choose the right market mix.
- Analyze the foreign exchange market and take appropriate measures for export promotion.

Skill sets

- Skill of assessing the nations on different parameters and arrive at a decision on feasibility of entering that market.
- Skill of scanning and responding to the dynamic international environment.
- Withstanding the pressures and maintaining the profitability amidst the fluctuations of the foreign exchange market.
- Skill of strategically using the export promotion assistance for the benefit of the firm.

UNIT - I

Introduction

Definition, Drivers of International Business, Domestic Vs. International Business, Trade and Investment Theories :Interventionist Theories, Free Trade Theories, Theories Explaining Trade Patterns: PLC Theory, The Porter Diamond, Factor Mobility Theory

Country scan

13 Hours

UNIT - II

Globalization

Globalization: Implications, Challenges - Protectionism: Tariff Barriers, Non Tariff Barriers- Forms of Integration, Economic, Political, Cultural and Technological Environments

Anti dumping duty

13 Hours

UNIT - III

Market Strategies

Market Entry Strategies, Product Decisions, International Pricing, Marketing Channels, International Promotion, International Organization and Human Resource Management

Culture shock

11 Hours

UNIT - IV

Foreign Exchange

Balance of Payment, Foreign Exchange Market, Determination of Exchange Rate, Exchange Rate Systems , Convertibility of Currency, Basics of Foreign Exchange Management Act (FEMA)

Forex and Export / Import

12 Hours

UNIT - V

Export Promotion

Indian Trade Policy, Export Promotion: EOUs, Special Economic Zones, Export Houses , Financing Foreign Trade - Export Procedures

Letter of credit

12MF01 BANKING SYSTEMS AND PRACTICES

3 0 0 3

Objectives

- To introduce the concept of Banking and its growth in India.
- To make the students understand various types of deposits & advances.
- To create awareness on the broad contours of export & import credit and expose the students to the recent developments in banking in India.

Outcomes

- Able to understand Banking Process.
- Able to acquire expertise in the area of Export Credit
- Gain insight into the Electronic Payment System, Net Banking and Mobile Banking

Skill Sets

- Evaluate a loan proposal submitted by the customer.
- Assist the customers to choose appropriate financial products.
- Process the Export Finance Documents.
- Adopt the modern technologies in the Banking Services.

UNIT – I

Introduction to Banking

Role of banks, Brief History of Banking, Structure of banking sector in India, Rationale of Banking Sector Reforms, Basle Committee recommendations.

Rationale of Banking Sector Reforms

9 Hours

UNIT – II

Deposits and Advances

Deposits: Banker Customer Relationship, Various Types of Deposits, Advances: Principles of Sound Lending, Methods of Granting Advances, Secured Advances, Modes of Creating Charges, Types of Advances. Bank Guarantees.

Flexi Deposits

10 Hours

UNIT – III

Priority Sector Lending & NPA Norms

Rationale of Priority Sector Lending, Different Segments of Priority Sector Advances. DICGCI, Classification of Advances: NPA Norms, Recovery of Advances.

Current Trend in Advances

8 Hours

UNIT – IV

Export Credit

Introduction to UCPDC, Exports – Preshipment and Post – Shipment Credit, Import Financing, RBI Role in Promoting Export Credit, EXIM Bank, ECGC.

Role of ECGC

10 Hours

UNIT – V

Recent Developments in Banking

Retail Banking, ATM, EFT, Tele Banking, Credit Cards, Debit Cards, Smart Cards, e-banking, Ancillary Businesses: Drafts, MT, TT, Safe Custody.

Mobile Banking

8 Hours

Total: 45 Hours

12MF02 FINANCIAL DERIVATIVES

3 0 0 3

Objectives

- To know about the Derivative Instruments in the Financial Market and role of Stock Exchange.
- To understand the concept of Forward and Futures Contract, Options and Swaps.
- To know about the Commodity Derivative Instruments in India.

Outcomes

- Use Forward Contract, Futures Contract, Options and Swap to hedge the unsystematic Risk.
- Able to analyze the Future and Forward Prices.
- Able to calculate the intrinsic value and time value of options.

Skill Sets

- Estimate the Currencies and Commodities Financing.
- Hedging the risks using Stock Index Futures.
- Scientifically estimate the impact of the various Derivative Instruments.
- Estimate and decide the various Interest Rate Risks.

UNIT – I

Derivatives

Definition, Types, Forward Contracts, Futures Contracts, Options, Swaps, Differences between Cash and Future Markets, Types of Traders, OTC and Exchange Traded Securities, Types of Settlement, Uses and Advantages of Derivatives.

Rolling Settlement Strike Price

9 Hours

UNIT – II

Futures

Specifications of Futures Contract, Margin Requirements, Marking to Market, Hedging using Futures, Types of Futures Contracts, Securities, Stock Index Futures, Currencies and Commodities, Delivery Options, Relationship between Future Prices, Forward Prices and Future Spot Prices. (Only Theoretical Aspects)

12MF05 PROJECT FINANCE

3 0 0 3

Objectives:

- Introduce the Students to the Purpose, Principles, Problems, Challenges, Concepts, Techniques, and Practice of Project Management and its various facets.
- Impart skills in Project Planning, Execution and Control Methods.
- Introduce students to Project Management Software and its Applications.

Outcomes

- Able to generate and screen the Project Ideas.
- Able to analyze the Market, Technical and Financial feasibility of Projects.
- Capable of implementing and reviewing the Projects.

Skill Sets

- Estimating the Project Cash Flows.
- Performing Risk Analysis using various tools.
- Selecting appropriate sources of Project Financing.
- Creating Work Breakdown Structure.

UNIT – I

Introduction

Project Management Concepts, Project Organizational Structures, Types of Capital Investments, Phase of Capital Budgeting, Levels of Decision Making, Facets of Project Analysis, Project Formulation: Generation and Screening of Project Ideas.

Nature of Capital Investment

9 Hours

UNIT – II

Analysis of Projects

Feasibility Study, Market and Demand Analysis, Technical Analysis, Financial Estimates and Projections.

Demand Forecasting Techniques

9 Hours

UNIT – III

Selection of Projects

Basic Techniques - Investment Criteria and Project Cash Flows, Advanced Techniques - Risk Analysis, Sensitivity Analysis, Scenario Analysis, Break-even Analysis, Simulation Analysis, Firm Risk and Market Risk.

Goal Seek

9 Hours

UNIT – IV

Financing

Financing of Projects, Financing Infrastructure Projects, Venture Capital and Private Equity.

Angel Financing

9 Hours

UNIT – V

Implementation and Review of Projects

Planning and Sequencing of Project, Creating the Project Schedule (WBS), Resource Planning for Internal and External Resources, Executing the Project Plan and Keeping the Project on Track, Network Techniques for Project Management. (PERT and CPM), Project Review.

Gantt Chart Construction

INDUSTRIAL RELATIONS AND LABOUR LAWS

3 0 0 3

Objectives

- To provide basic knowledge in industrial relations.
- To enable the students to understand the various provisions of Trade Unions.
- To impart knowledge on Labour Laws.

Course outcomes

- Apply statutory measures to settle Industrial Relation issues.
- Analyze the trade union problems based on legal provisions.
- Apply the various provisions of social security measures in the organization.

Skill sets

- Creation of good Industrial Relations.
- Negotiating with union leaders.
- Liaisoning with various government agencies.

UNIT – I

Industrial Relations

Concepts, Importance, Objectives, Scope, Approach to Industrial Relations, Evolution, Conditions for Successful Industrial Relations, Causes of Poor Industrial Relations.

Industrial Relations in Government and Private Sector.

8 Hours

UNIT – II

Trade Union

Objectives, Applicability, Evolution, Theories, Provisions of the Act, 1926, Registration of Trade Union, Duties and Liabilities of Registered Trade Union, Rights and Privileges of Registered Trade Unions, Amalgamation and Dissolution, Submission of Returns, Penalties and Fines, Power to Make Regulations.

Trade Union in Indian Scenario.

9 Hours

UNIT – III

Labour Legislation –I

Factories Act 1948, Contract Labour (Regulation and Abolition) Act, 1970, Industrial Disputes Act 1947, Industrial Employment (Standing Orders) Act, 1946.

Safety Measures

10 Hours

UNIT – IV

Labour Legislation -II

Minimum Wages Act 1948, Payment of wages Act, 1936, Payment of Bonus Act, 1965, Maternity Benefit Act 1961.

Paternity Benefit.

8 Hours

UNIT – V

Labour Legislation -III

Employees' Provident Funds and Miscellaneous Provisions Act, 1952, Employees State Insurance Act, 1948. Payment of Gratuity Act, 1972, Workmen Compensation Act, 1923.

Social Security Measures.

10 Hours

Total: 45 Hours

12MH02

MANAGERIAL BEHAVIOR AND EFFECTIVENESS

3 0 0 3

Objectives

- To understand the dimensions of managerial job.
- To enable the students to become effective managers.
- To develop the winning edge among the students.

Course Outcome

- Analyze the issues from of managerial jobs.
- Able to apply an appropriate style of managerial behaviour and approach to manage of people.
- Apply winning attitude, competitive spirit and creativity for success.

Skill Set

- Getting things done from others.
- Creating togetherness amongst employees.
- Creating career development path for employees.
- Evaluate the challenges posed by different environment.

UNIT – I

Introduction

Descriptive Dimensions of Managerial Jobs, Methods, Model, Time Dimensions in Managerial Jobs, Effective and Ineffective Job Behaviour, Functional and Level Differences in Managerial Job Behaviour.

Time Management.

9 Hours

UNIT – II

Designing the Managerial Job

Identifying Managerial Talent, Managerial Skills Development, Pay and Rewards, Managerial Motivation, Effective Management Criteria, Balanced Scorecard, Feedback, Career Management.

Talent Management.

9 hours

UNIT – III

Managerial Effectiveness

Definition, The Person, Process, Product Approaches, Bridging the Gap, Measuring Managerial Effectiveness, Current Industrial and Government practices in the Management of Managerial Effectiveness.

Managerial Effectiveness in Government and Private Sector.

9 Hours

UNIT – IV

Environmental Issues

Organizational Processes, Organizational Climate, Leader, Group Influences, Job Challenge, Competition, Managerial Styles.

Leadership Styles.

9 Hours

UNIT – V

Developing the Winning Edge

Organizational and Managerial Efforts, Self Development, Negotiation Skills, Development of the Competitive Spirit, Knowledge Management, Fostering Creativity.

Personality Attributes.

9 Hours

Total: 45 Hours

12MH03

ORGANIZATIONAL CHANGE AND INTERVENTION STRATEGY

3 0 0 3

Objectives

- To facilitate students to understand the organizational change process.
- To enable students to understand organization development and Interventions.
- To help students understand Change Management Strategies.

Course Outcomes

- Analyze the environment that forces the change.
- Apply the various change models during the change process.
- Able to act as change agents.

Skill sets

- Taking right decisions considering the environmental factors in the change process.
- Develop change models for the organization.
- Frame strategies to overcome resistance.
- Effective communication while initiating the change process.

UNIT – I

Organizational Change

Forces, Types, Frameworks, Process. Resistance to Change, Overcoming Resistance.

Fear of Change

9 Hours

UNIT – II

Perspectives on Organizational Change

Models, Integration, Need for Change - Environmental Pressures, Organizational Pressures - Organizational Culture and Change, Change Management Process.

Formal Culture.

9 Hours

UNIT – III

Change Management

Diagnosis for Change, Modelling Organizations, Component Analysis, Diagnosing Readiness, Role of Managers in Change management.

Unfreezing change.

9 Hours

UNIT – IV

OD Intervention

Types: Human Process, Techno Structural, Human Resource Management, Strategic Change, Designing Interventions.

Manipulation.

9 Hours

UNIT – V

Implementing Change

Strategies for Communicating, Implementation Process: Approaches, Managing Skills, Consolidating Change, Evaluation.

Role of Change agents.

9 Hours

Total: 45 Hours

12MH04 PERFORMANCE MANAGEMENT

3 0 0 3

Objectives

- To understand the concept and importance of Performance Management.
- To comprehend the process of Performance Management System and its evaluation.
- To expose the various methods of measuring and monitoring performance.

Course Outcomes

- To synthesize a Performance Management Process.
- To develop an effective performance measurement tool.
- To analyze and evaluate a Performance Management System.

Skill Sets

- Build a Performance Management System.
- Improve a Performance Management System.
- Implement Performance Management System.
- Acquire Coaching and Counseling skills.

UNIT – I

Introduction

Definition, Importance, Purpose, Performance appraisal Vs Performance Management
Ideal Characteristics of Performance Management System

8 Hours

UNIT – II

Process

Performance Management Process, Performance Planning, Performance Dimensions
Prerequisites

9 Hours

UNIT – III

Measuring Performance

Approaches in Measuring Performance, Methods of Measuring Results, Methods of Measuring Behaviours,
Developing Appraisal forms
Rater Biases

10 Hours

UNIT – IV

Implementation and Monitoring

Pilot Study, Monitoring, Methods of Monitoring, Giving Feedback, Development Plans, Counseling and
Coaching
Communication Plan

10 Hours

UNIT – V

Rewards and Evaluation

Rewards and Recognition, Traditional pay plans, Contingent pay plans, Areas of Evaluation
Methods of Evaluation

8 Hours

Total: 45 Hours

References

BEHAVIOUR MODIFICATION AND MANAGEMENT

3 0 0 3

Objectives

- To understand the basic concepts in Spiritual Intelligence, Emotional Intelligence and Transaction Analysis.
- To know the types and benefits of yoga.
- To comprehend the reasons for stress and the methods to relieve it.

Course Outcomes

- Able to differentiate Spirituality and Religion.
- Suggest strategies to develop a spiritually inclined organization and overcome stress.
- Able to develop emotional intelligence.

Skill sets:

- Managing oneself in a better manner.
- Implement strategies in organization to reduce stress and improve emotional intelligence and spiritual intelligence among employees.
- Reduce Stress.
- Improve interpersonal relationship.

UNIT – I

Yoga

Purpose, Properties of Yoga, Eight Limbs of Yoga, Seven Chakras and its Characteristics, Types of Yoga, Importance of Breath and Quality of life
Benefits of Yoga in workplace

10 Hours

UNIT – II

Spiritual Intelligence

Definition, Spirituality Vs Religion, Goals of Life, Strategies to develop a Spiritually Inclined Organization
Spiritual Inclination

10 Hours

UNIT – III

Emotional Intelligence

Definition, Factors of Emotional Intelligence, Analysis of Thoughts, Basing of Desires, Neutralization of Anger, Eradication of Worries, Overcoming Fear, Harmony and Happiness in Life, Attachment, Detachment and Moderation in Enjoyment
Importance of EI in Workplace

9 Hours

UNIT – IV

Stress

Understanding Stress: Meaning, Work Related Stress, Individual Stress, Strategies to Cope-up Stress, Importance of Work-Life Balance
Symptoms of stress

8 Hours

UNIT – V

Transaction Analysis and Goal Setting

Transaction Analysis, Kinds of Transactions, Strokes, Types of Scripts, Time Structuring, Achieving Goals
Setting Goals

8 Hours

Total : 45 Hours

References

TRAINING AND DEVELOPMENT

3 0 0 3

Objectives

- To enable the students to identify training needs.
- To help the students in understanding training methods.
- To familiarize the students in pedagogical approaches for Management Development.

Course Outcomes

- Design a Training program.
- Execute a Training program.
- Evaluate a training program.

Skill Sets

- To analyze an organization, person, work and training programs.
- To make decisions regarding training and development.
- To organize training and development programs successfully.

UNIT – I

Introduction

Scope, Objectives, Importance, Training Process, benefits, Learning, Principles of Learning, Learning Theories, Learning process

Learning Environment

10 Hours

UNIT – II

Need Analysis

Need Assessment Process, Organizational Analysis, Person Analysis and Task Analysis

Importance of need analysis

9 Hours

UNIT – III

Training design and implementation

Designing Training Programmes, Training Methods, Developing Effective Trainers

Outsourcing

9 Hours

UNIT – IV

Approaches to Management Development

Methods of Development, Designing Development Programme, Team Building Exercises

Management Games

9 Hours

UNIT – V

Evaluation of Training and Development

Overview, Evaluation process, Outcome, Evaluation design, Challenges in Training and Development

Return on Investment

8 Hours

Total: 45 Hours

References

12MH07

COMPETENCY MAPPING AND DEVELOPMENT

3 0 0 3

Objectives

- To make the students comprehend the basic concepts in competency mapping
- To understand the role and importance of competency mapping in the development of an organization
- To figure out the steps involved in developing a competency mapping model

Course Outcomes

- To enable the students to use competency mapping as a tool for improving the efficiency of the workforce.
- To validate a competency mapping model
- To evaluate a competency mapping model

Skill Sets

- Identify the core competencies
- Designing of a competency mapping model
- Implement a competency mapping system successfully

UNIT – I

Introduction

Definitions, Competence, Competency, Capability, Skill, Knowledge and Motive, Trait, Need of Competencies, Competency Mapping

Uses of competency mapping

8 Hours

UNIT – II

Competency Categories

Threshold Competencies, Differentiating Competencies, Functional or Technical Competencies, Leadership or Managerial Competencies, Organizational Competencies.

Generic or Key Competencies

8 Hours

UNIT – III

Developing Competency Model

Identifying Core Competencies, Developing Assessment Instrument, Performance Effectiveness Criteria, Base Competency Map, Competency Grading, Competency Assessment, Finalizing and Validating Competency Model

Data Gathering

10 Hours

UNIT – IV

Competency Models

Leadership and Managerial Competency Models, Recommended Actions to address resistance, Competencies and Generic Indicators, HR Generic Competency Model, Supervisory Generic Competency Model

Causes for Resistance against Competency mapping

10 Hours

UNIT – V

Implementation and Development

Communication & Implementation of Competency Mapping, Strategies to Address the Gaps, Evaluate ROI, Reassess Competencies and Development

Challenges in Implementation of Competency Mapping

9 Hours

Total: 45 Hours

References

12MS01

INFORMATION SYSTEMS DESIGN AND DEVELOPMENT

3 0 0 3

Objectives

- To enable the students to understand the fundamentals of Information Systems.
- To understand the importance of e-Business and Database Management.
- To enrich knowledge in the area of System Analysis, Design and Implementation.

Outcomes

- Able to manage the Information Systems Resources.
- Able to design a Database.
- Able to conduct a feasibility study on System Design.

Skill Sets

- Establishing organizational foundations of Information Systems.
- Development and Administration of Database Systems.
- Analyzing user requirements to customize System Design.
- Efficient implantation of newly designed systems.

UNIT – I

Introduction to Information Systems

Introduction and Fundamentals of Information Systems, Technical and Organizational Foundations of Information Systems, Building Information Systems, Managing Information Systems Resources.

Managing the Building Information System model guidelines

9 Hours

UNIT – II

e-Business and Database Management

e-Business System Development – Key e-Business enabling Information Technologies. Database Management – Database design, Development and Administration, Database Systems and Applications, Logical Data Models, Relational Database Systems, Structured Query Language (SQL), Conceptual Modeling, Database Design, Web-Connected Databases.

Online Query System

9 Hours

UNIT – III

Systems Analysis and Design

Systems Analysis and Design, Analysis Phase of Systems Development, Development Life Cycle, Feasibility Studies, Analysis of User Requirements, Development of Logical System Models.

Cost Benefit Analysis of a New System Development

9 Hours

UNIT – IV

Systems Implementation

Systems Implementation, Software Project Management, System / Database Design, GUI, Software Testing, Integrating Web and Business Environments.

Availability of various Project Management Software

9 Hours

UNIT – V

Information Systems Development

Information Systems Development, User Requirement Analysis, Logical and Physical System Models, System Implementation and Maintenance, Project Valuation and Management.

Assessing Economic Value of Project Software

9 Hours

Total: 45 Hours

References

1. V. Rajaraman, *Analysis and Design of Information Systems*, Prentice-hall of India: 2011

12MS02

e-COMMERCE

3 0 0 3

Objectives

- To enable the students to understand the concepts and methods of e-Commerce.
- To develop an understanding of the current practices and opportunities in electronic commerce.
- To give an insight about electronic payment system and its security.

Outcomes

- Able to use Online Business Models to improve the efficiency.
- Leverage Electronic Payment System to accelerate the collection process.
- Able to address the issues of Security and Encryption for e-commerce.

Skill Sets

- Increasing the sales through launching B2C and B2B Business Models.
- Providing Online Customer Service.
- Launching Unified Payment System to do international business.
- Ensuring safe transactions through Internet Security Protocols and Standards.

UNIT – I

Foundations of e-Commerce

Scope, Driving Forces, Impact, Benefits and Limitations, Basic Technology of the Internet, Web Technology, and e-Commerce.

Trend in e-Commerce

9 Hours

UNIT – II

Business Models

Component of a Business Model, Online Business Models, Characteristics of B2B Models, Buyer, Supplier and Intermediate oriented Marketplace. (DELL & e-bay)

Successful Business Models

9 Hours

UNIT – III

Retailing in e-Commerce

Direct Marketing, Online Customer Service, Electronic Intermediaries, Procedure of Internet Shopping, Web Advertisement: Methods, Strategies, Intelligent Agents. (Amazon.com)

Role of Intelligent Agents

9 Hours

UNIT – IV

Electronic Payment System

Protocols, Security Schemes, Credit Card System, Debit Cards System, Electronic Fund Transfer, Smart Card, e- Cash, Unified Payment Systems. (Sify & Verizon)

e-payment Scenario in India

9 Hours

UNIT – V

e-Security

Designing for Security, Client and Server Security, Protection and Recovery, Encryption, Internet Security Protocols and Standards, Network security and firewalls.

Various Security Threads

9 Hours

Total: 45 Hours

References

1. Efraim Turban, Jae Lee & David King and H. Michael Chung, *Electronic Commerce A Managerial Perspective*, New Delhi: Prentice Hall, 2011.

12MS03

BUSINESS INTELLIGENCE

3 0 0 3

Objectives

- To give an insight into Business Intelligence and its concepts.
- To enable the students in understanding project planning and application development.
- To introduce the students to modern information technology.

Outcomes

- Able to take initiatives to use BI for Decision Support.
- Able plan and execute a BI Project.
- Able to perform Meta Data Repository Analysis.

Skill Sets

- Conducting Technical and Non-technical evaluation of Enterprise Infrastructure meant for BIDSS.
- Developing Metric for deliverables of BI Project.
- Designing Meta Data.
- Using a suitable architecture for Multidimensional Analysis.

UNIT – I

Introduction

Definition, BI process- Private and Public intelligence, BI Decision Support Initiatives, Business Drivers, Cost-Benefit analysis, Risk Assessment, Enterprise Infrastructure Evaluation-Technical and Non-technical.

Risk Assessment Tools

9 Hours

UNIT – II

Project Planning and Data Analysis

BI Project planning, Requirements definition and gathering, deliverables, Business focused data analysis, Top-down Logical data modeling, Bottom-up source data analysis, data cleansing, Prototyping, BI Success factors.

Metrics of Deliverables

9 Hours

UNIT – III

Metadata Repository Analysis and Design

Meta Data models, Analysis, Database design, Extract/ Transform / Load (ETL) design, Meta data design, ETL development.

Descriptive Meta Data

9 Hours

UNIT – IV

Application Development

OLAP tools, Multidimensional analysis factors, architecture, Data mining, Risks, Metadata repository development, Implementation, Release evaluation.

Data Clustering

9 Hours

UNIT – V

Modern Information Technology and its Business Opportunities

Business intelligence software, BI on web, Ethical and legal limits, Industrial espionage, BI software, Modern techniques of crypto analysis, Managing and organizing for an effective BI Team.

Symmetric-key cryptography

9 Hours

Total: 45 Hours

References

12MS04

KNOWLEDGE MANAGEMENT

3 0 0 3

Objectives

- To enable the students to understand the fundamental concepts in Knowledge Management.
- To learn the Methods, Techniques and Tools of Knowledge Management.
- To understand the Ethical and legal issues in Knowledge Management.

Outcomes

- Able to face the challenges in Building a Knowledge Management System.
- Able to do the Knowledge Codification.
- Able to use the Neural Networks as Learning Model.

Skill Sets

- Enabling the subordinates to have ready access to the organization's documented base of facts, sources of information and solutions.
- Knowledge creation through mobilization and conversion through technology.
- Application of various Knowledge Capturing Techniques.
- Conducting the Post Implementation Reviews efficiently.

UNIT – I

Introduction

Understanding Knowledge: Data, Information and Knowledge, Types of Knowledge, Human thinking and Learning, Knowledge Management, System Life Cycle, Conventional vs. KM System Life Cycle, Challenges in Building KM System.

Human Thinking Process

9 Hours

UNIT – II

Knowledge Creation and Capture

Knowledge Creation, Nanaka's Model, Knowledge Architecture.

Capturing Tacit Knowledge: Evaluating the Expert, Developing a Relationship with Experts, Fuzzy Reasoning and Quality of Knowledge Capture, Interview as a Tool Guide to Successful Interview, Rapid Prototyping Interviews, other Knowledge Capture Techniques: on-site Observation, Brainstorming, Protocol Analysis, Census Decision Making, The Repertory Grid, Nominal Group Technique, Delphi Method, Concept Mapping, Black boarding.

Tacit vs. Explicit Knowledge

9 Hours

UNIT – III

Knowledge Codification and System Implementation

Knowledge Codification: Meaning, Reasoning for Codifying, Codification Tools and Procedures. Knowledge Developer's Skill Set, System Testing and Deployment: Knowledge Testing, Approaches to Logical Testing, Approaches to user Acceptance Testing, Managing the testing phase, KM System Deployment: Issues, User Training, Post Implementation Review.

Knowledge Transfer and Knowledge Sharing: Transfer as a Step in the Process, Transfer Methods, Role of Internet in Knowledge Transfer, Knowledge Transfer in the e-world.

Current scenario of Knowledge Transfer in the e-world

10 Hours

UNIT – IV

KM System Tools and Portals

Learning from Data: Data Visualization, Neural Networks as a Learning Model, Association Rules, Classification Trees.

Data Mining: Definition, Data Mining and Business Intelligence, Business Drivers, Technical Drivers, DM Virtuous Cycle, Data Management, Role of DM in Customer Relationship Management. Portals: Definition, the Business Challenge, Knowledge Portal Technologies.

Data Mining Product Providers

9 Hours

UNIT – V

Ethics in Knowledge Management

Ethics, Legal and Managerial Issues: Knowledge Owners, Legal Issues, Ethics Factor, Improving the Climate, Managing Knowledge Workers.

Managing Dispersed Knowledge

8 Hours

Total: 45 Hours

References

12MS05

DECISION SUPPORT SYSTEM

3 0 0 3

Objectives

- To enable the students to understand how an Information system can be used for decision support.
- To introduce various types of models in decision support systems.
- To help students understand the design and implementation process of Decision Support Systems.

Outcomes

- Capable of applying appropriate decision support system techniques
- Able to address the implementation issues
- Able to leverage on the Group Decision Support System.

Skill Sets

- Developing DSS using DBMS
- Selecting appropriate Decision Support System Model
- Administering the DSS Development Process
- Implementing Work Flow system

UNIT – I

Database

Sources of Data, Data Dictionary, Data Structure and Database Languages, Query Facility, Data Management System, DBMS as DSS Development Tool

Different Types of Data

9 Hours

UNIT – II

DSS steps and Models

Decision Making – steps, phases, Models, Descriptive, Prescriptive, Static, Dynamic, Optimization, Heuristic, Simulation Model

Simulation Packages

9 Hours

UNIT – III

DSS Standard Packages

Specialized tools and Generators, Programming Language for DSS, User Interfaces

Types of User Interfaces

9 Hours

UNIT – IV

Building and Implementing DSS

Architecture, Internet and Client / Server Computing in DSS, DSS Development Process, System Conversion, Implementation issue

Issues in System Conversion

9 Hours

UNIT – V

Group DSS

Concepts, Reasons, Factors, Group activities, Media Richness, Task Types, Types of GDSS, Groupware, Electronic Meeting system and work flow system.

Impact of WFS

9 Hours

Total: 45 Hours

References

12MS06

RELATIONAL DATABASE MANAGEMENT SYSTEMS

3 0 0 3

Objectives

- To enable the students to understand the concepts, structures and functions of a database.
- To enhance the knowledge of students in data storage and query evaluation.
- To help the students to understand the issues involved in the operation of DBMS.

Outcomes

- Able to choose appropriate Database Systems.
- Able to structure Complex Queries.
- Leverage RAID System.

Skill Sets

- Application of Embedded and Dynamic SQL and other SQL Functions.
- Using the Hash Structure appropriately.
- Optimizing the Query.
- Implementing Relational Database Design.

UNIT – I

Introduction

Database Systems vs. File Systems, View of Data, Data Models, Database Languages, Database Systems Structure, History of Database Systems, Database Systems Applications, Entity Relationship Model.

Current Trend in DBMS

9 Hours

UNIT – II

Relational Databases

SQL: Basic Structure, Set Operations, Complex Queries, Joined Queries, DDL, Embedded SQL, Dynamic SQL, Other SQL Functions-Query by Example, Relational Database Design.

Uses of Relational Database Design

9 Hours

UNIT – III

Data Storage and Indexing

Storage and File Structure, Disks, RAID, File Organization, Indexing and Hashing, B+ TREE, B- Tree, Static Hashing, Dynamic Hashing, Multiple Key Access.

Index Schemes

9 Hours

UNIT – IV

Query Evaluation & Optimization

Query Processing-Selection Operation-Sorting-Join Operation, Evaluation of Expressions, Entity-Relationship model.

Query Optimization

9 Hours

UNIT – V

Relational- Database Design

Functional Dependencies, Pitfalls in Relational Database design, Decomposition, Proportions of Decomposition, Normal forms, 1NF, 2NF,3NF,4NF and Boyce-Codd Normal form.

Trivial Functional Dependencies

9 Hours

Total: 45 Hours

12MS07

CONTENT MANAGEMENT AND ELECTRONIC PUBLISHING

3 0 0 3

Objectives

- To equip the students to design web-based content and to utilize mark-up languages for text and graphic presentation.
- To manage content formatting with style sheets.
- To understanding the fundamental concepts of XML and related technologies.

Outcomes

- Able to create an effective Information Architecture.
- Able to Optimize Web Contents.
- Able to Design attractive Forms.

Skill Sets

- Improving information access in a large digital collection using Meta Data.
- Shaping Digital Documents using Genre.
- Re-design the existing Web Site to optimize the search engine.
- Providing Web Services to integrate the e-CRM with existing the e-Commerce.

UNIT – I

Content

Content Types, Document Genres, Digital Document Genres, Different Digital Content Genres.

History of Genre

9 Hours

UNIT – II

Information Architecture

Information Architecture, Organization, Labeling, Navigation, Searching Metadata, Process and Methodology, Research, Strategy, Design, Documentation.

Evolution of IA

9 Hours

UNIT – III

Markup Languages and Web Design

Markup Languages, HTML, SGML, XHTML, Web Design-Web Page Content vs. Appearance Beyond Text Content: Images, Color, Multimedia Objects, Hypertext, Lists, Tables and Frames, Cascading Style Sheets, Styles, Syntax, Properties, Tag-Less Styles.

World Wide Web Consortium

9 Hours

UNIT – IV

Forms and Executable Content

Forms, Tags, Layout, Contents, Targeting, Executable Content, Applets and Java, Embedded Content, JavaScript, JavaScript Style Sheets, Tools, Macromedia Flash.

Dynamic Content

9 Hours

UNIT – V

XML Technologies

Overview of XML Technologies, XML Fundamentals, Programming in Java, Enterprise Application, e-Commerce (Web Services), Open Source XML Projects, XML Tools

XML Declaration

9 Hours

Total: 45 Hours

12MO01 BUSINESS PROCESS REENGINEERING

3 0 0 3

Objectives

- To understand about the importance of business process reengineering and kaizen.
- To enable the students to understand the relevance of change management in business process reengineering.
- To familiarize with the process of implementation of Business Process Engineering.

Course Outcomes

- Capable of applying the concept of Kaizen relevant to Business Process Reengineering.
- Able to relate business process reengineering with Total Quality Management, Quality Function Deployment and ISO.
- Able to manage change in Business Process Reengineering.

Skill sets

- Skill of Implementing Business Process Reengineering.
- Identifying pitfalls in reengineering structure and correct them.
- Manage change and its impact on Business Process Reengineering.

Unit I

Business Process Reengineering and Kaizen

BPR: Definition, Japanese Business strategy, Kaizen and Management, Characteristic features of Kaizen relevant to BPR.

New developments in BPR

8 Hours

Unit II

Business Process Reengineering and other Management concepts.

Issues in BPR, BPR and TQM, QFD, ISO standards, ERP.

Benefits of ISO standards.

9 Hours

Unit III

Implementation of Business Process Reengineering.

Business vision and process objectives, Identification of processes to be reengineered , Measurement of processes, Design .

Evaluation of process prototype.

10 Hours

Unit IV

Reengineering Structure and Pitfalls

BPR leader, Process owners, Reengineering teams, Pitfalls in organizational environment. Complacency management, Reengineered process.

Appraisal system.

9 Hours

Unit V

Change Management in Business Process Reengineering

Structure of change, Approaches to radical change, Management of change in BPR, Application of negotiation in BPR.

Implementation of changes.

9 Hours

Total: 45 Hours

12MO02 ADVANCED MAINTENANCE MANAGEMENT

3 0 0 3

Objectives

- To introduce the functions of maintenance.
- To familiarize the students with Total Productive Maintenance.
- To enable the students to understand the concept of optimum overhaul.

Course Outcome

- Able to predict maintainability
- Able to plan for maintenance
- Able to apply Reliability Centered Maintenance (RCM) and Total Productive Maintenance

Skill sets

- Conduct Failure Data Analysis
- Prepare Maintenance Schedule
- Implement Maintenance System
- Tackle challenges of Maintenance function

UNIT – I

Maintenance Concepts

Objectives and functions of maintenance, types, Maintenance strategies. Organization for maintenance. Five Zero concept
New Developments in Maintenance.

8 Hours

UNIT – II

Failure Data Analysis

MTBF, MTTF, Useful life, Survival curves, Repair time distribution, Break down time distributions, Poisson, Exponential and Normal distribution. Availability of repairable Systems, Maintainability prediction, Design for maintainability.
Preventive Maintenance.

9 Hours

UNIT – III

Maintenance Planning

Overhaul and repair: Meaning and difference, Optimal overhaul / Repair / Replace maintenance policy, Re placement Decisions: Optimal Interval.
Group Replacement

10 Hours

UNIT – IV

Maintenance Systems

Fixed time maintenance, Condition based maintenance, Operate to failure, Opportunity maintenance, Design out maintenance, Total Productive Maintenance.
Reduction of Maintenance Cost.

9 Hours

UNIT – V

Advanced Techniques

Reliability Centered Maintenance (RCM) – Total Productive Maintenance (TPM) - Philosophy and implementation, Signature analysis - Expert systems – Concept of Terro technology, Reengineering Maintenance Process, Concept of reliability, Reliability improvement, Concept of maintainability and maintainability improvement.
Maintenance Management Information System (MMIS)

9 Hours

Total: 45 Hours

12MO03 LEAN MANUFACTURING**3 0 0 3****Objectives**

- To understand the principles behind lean manufacturing philosophy.
- To enable the student to understand the concept of Value Stream Mapping (VSM)
- To familiarize them with implementation of various lean manufacturing techniques.

Course Outcome

- Able to prepare demand process flow and layout.
- Able to apply Kanban strategies to reduce inventory.
- Able to implement lean philosophy.

Skill sets

- Implementation of Lean manufacturing system.
- Develop product, process and demand flow.
- Implement Kanban strategies for inventory management.
- Designing of 5S

UNIT – I**Benefits of Lean Manufacturing System**

History and modern applications, MRP and their impact, Lean manufacturing model, Kanban Methodology, Continuing evaluation, Strategic Business Analysis.

Internet and e-commerce applications

Hours**UNIT – II****Understanding Product, Process and Demand**

Value Stream Mapping - Scope, Selecting parent parts, Lean line, Demand, Documenting process flow, Takt time, Process linking and Balancing. Imbalance, Approach, Resource, Definition, Physical Layout, Designing 5S

Kanban Signaling

9 Hours**UNIT – III****Kanban Strategies**

Process, Single, Multi Card system, Inventory Management, Advantages and Disadvantages. Team Establishment: Commitment, Physical facilitation, Management Structure.

Transformation process

10 Hours**UNIT – IV****Lean Implementation and Milestones**

Software requirement milestones, Understanding process, Product and Materials, Checking, Factory design, Line startup.

Lean implementation in services

9 Hours**UNIT – V****Lean Line management**

Matching customer demand, Customer response policy, Lean line optimization, Resistance to change.

Flexibility and rewards

9 Hours**Total: 45 Hours****References**

12MO04

PURCHASING AND MATERIALS MANAGEMENT

3 0 0 3

Objectives

- To introduce about purchase and materials management practices.
- To enable the students to understand supply sources.
- To familiarize about warehouse management.

Course outcome

- Able to make purchase decisions.
- Able to plan for material requirements.
- Able to analyze inventory.

Skill sets

- Prepare cost analysis and purchase strategy.
- Compute optimum inventory level
- Monitor material movement and control.

UNIT – I

Purchasing Functions.

Relationship of purchasing Department with other departments, Procurement, Supply management activities, Purchasing objectives and policies, Operating procedures, Purchasing cycles, Objectives of materials management.

Organization of material function.

8 Hours

UNIT – II

Supply Sources

Importance of source selection, Vendor development & maintenance, Vendor rating, Competitive bidding, Selecting the source, Negotiation: Objectives, Process, Techniques, Price negotiation, Purchasing of capital goods, Seasonal commodities, Insurance spares.

Contract management.

9 Hours

UNIT – III

Materials Planning

Materials Codification: Evolution of codes, Classification, Methodology, Advantages, Standardization: Definition, Specification, Advantages, Techniques, Pricing Principles: Price analysis, Discounts.

Economic consideration in determining the right price.

10 Hours

UNIT – IV

Materials Management

Materials management, Legal aspects of buying, Buyer-Seller relationship and ethics.

Industry ethical practices in Materials.

9 Hours

UNIT – V

Warehousing Management

Stores management, Incoming material Control, Stores documentation & accounting, Materials Management Information System (MMIS).

New developments in MMIS.

9 Hours

Total: 45 Hours

12MO05

SERVICE OPERATIONS MANAGEMENT

3 0 0 3

Objectives

- To understand the role of services in economic development.
- To enable the students to understand the service design and management.
- To familiarize the students in the area of service productivity.

Course Outcomes

- Able to manage service operations.
- Able to use quantitative models for service management.
- Able to measure performance of service operations.

Skill sets.

- Capable of developing service strategies.
- Design the service blue print and locate the service facility.
- Manage service demand and capacity.
- Develop data envelopment analysis.

UNIT – I

Understanding Services

Role of services in the economy, Nature of services, Types of services, Service strategy.

Different service industries.

8 Hours

UNIT – II

Designing the Service Enterprise

New service development, Service blue print, Technology in services, Service quality, Process improvement in service encounter, Supporting facility and process Flows.

Service facility Location.

9 Hours

UNIT – III

Managing Service Operations

Managing Capacity and Demand, Managing Waiting Lines, Service Supply Relationships. Growth and Globalization of Services.

Managing project

9 Hours

UNIT – IV

Quantitative Models for Service Management

Capacity Planning and Queuing Models, Forecasting Demand for Services, Managing facilitating Goods.

Application of queuing models in different services.

10 Hours

UNIT – V

Service Productivity and Measurement of Performance

Application of linear programming techniques through Data Envelopment Analysis, Application of DEA in service sectors.

Scoring systems.

9 Hours

Total: 45 Hours

12MO06

SUPPLY CHAIN AND LOGISTICS MANAGEMNT

3 0 0 3

Objectives

- To introduce the concept of supply chain and logistics.
- To familiarize the key drivers of supply chain performance.
- To enable the students to understand the analytical tools necessary to solve supply chain problems.

Course Outcomes

- Able to explain the strategic role of a supply chain in the business process.
- Able to use key strategic drivers of supply chain performance for effective results.
- Able to analyze the analytic methodologies for supply chain.

Skill sets

- Use supply chain models and modeling system
- Estimating demand and managing supply chain cycle inventory.
- Develop Network design and supply chain network optimization models.
- Maintain Logistics and evaluate transport economics.

UNIT – I

Supply Chain

Fundamentals, Importance, Decision Phases, Process view, 'Supplier- Manufacturer-Customer chain', Supply chain performance: Drivers, Structuring supply chain.

Overview of supply chain models

8 Hours

UNIT – II

Overview of Demand forecasting in the supply chain

Aggregate planning, Managing predictable variability. Managing supply chain cycle inventory, Uncertainty, safety inventory, Determination of optimal level of product availability

Coordination in the Supply Chain

9 Hours

UNIT – III

Distribution Network Design

Role, factors influencing network, options, Value Addition. models for facility location and capacity planning. network design: Impact of uncertainty, decisions using decision trees. Distribution center location models. Supply chain network optimization models.

New developments in network designs

10 Hours

UNIT – IV

Logistic System

Evolution, Infrastructure and Networks. Freight Management, Route Planning, Containerization. Modal Characteristics, Inter-modal operators and transport economies. Ocean carrier management, import-export logistics management. logistics outsourcing.

Reverse logistics

9 Hours

UNIT – V

Transactional Logistics

Framework and role of supply chain in e- business and b2b practices. Supply Chain IT Framework. International supply chain, GPS, tracking system.

Software Packages in Supply Chain

9 Hours

Total: 45Hours

12MO07

TOTAL QUALITY MANAGEMENT

3 0 0 3

Objectives

- To make the students understand the basic concepts of total quality management and appreciate its importance in today's business environment.
- To enable them to acquire required diagnostic skills and use various quality tools.
- To familiarize the students about the Quality Management System.

Course Outcome

- Capable of applying TQM concepts for improving the quality of products and services.
- Use tools and techniques of TQM for continuous improvement in quality.
- Implement Quality Management System.

Skill Sets:

- Reduce the cost of quality.
- Managing people in the process of implementing TQM.
- Application of Quality control tools to maximize productivity by minimizing waste.
- Prepare organizations to bag quality awards.

UNIT - I

Introduction

Introduction and basic concepts, Definition of quality, Dimensions of quality, Evolution of TQM, TQM framework

Cost of Quality.

8 Hours

UNIT - II

TQM Implementation

Leadership for TQM, Deming's quality principle, TQM implementation, PDCA cycle, Quality Circles, Quality Council

Supplier Partnership.

9 Hours

UNIT - III

Process approach to TQM

Process approach, Juran's Trilogy, Taguchi's loss function, Kaizen, Quality by design, 5S.

5M.

10 Hours

UNIT - IV

Tools and Techniques

7 Old quality control tools, Total productive maintenance, Failure mode and effect Analysis, POKAYOKE, Six Sigma

Toyota and Six Sigma.

9 Hours

UNIT - V

Quality Management Systems

Management systems for TQM, ISO 9000 & 14000 Quality management systems, Auditing and certification Process

Quality Awards.

9 Hours

Total: 45 Hours

12MC01

FUNDAMENTALS OF COMMERCIAL BANK MANAGEMENT

3 0 0 3

Objectives:

- Understand the process of financial intermediation.
- Understand the basic concepts of advances, deposits and Negotiable Instruments Act.
- Understand the nuances of modern banking.

Course Outcomes

- Able to process & pass cheques and interpret the clauses of Negotiable Instruments Act.
- Capable of opening various types of deposit accounts following the RBI norms and monitor the transactions in the account.
- Able to create charges and levy interest for various types of advances.

Skill sets

- Calculate capital adequacy ratio, interest on deposit and advance accounts.
- Help customers to remit money through various banking channels.
- Handle and maintain various types of deposit and advance accounts.

Unit - I

Introduction to Banking

Role of banks, Brief History of banking in India, Structure of banking sector in India, Rationale of Banking Sector reforms, Basle Committee recommendations, Banker Customer relationship, RBI Act (Salient Features)

Latest recommendations of Basel Committee

10 Hours

Unit - II

Negotiable Instruments – Cheques

Meaning, Characteristics, Crossing, Endorsement, Duties of paying banker, Duties of collecting banker, Bouncing of cheques.

Liabilities of paying and collecting banks

10 Hours

Unit - III

Deposits

Opening of bank accounts, Types of deposit accounts: Savings account, Current account, Fixed deposit, Recurring deposit, Certificate of deposit, KYC Norms.

Monthly income plan

9 Hours

Unit - IV

Advances

Principles of Sound Lending, Methods of granting advances, Types of securities, Modes of creating charges, Bank guarantees, Interest rates: Base rate, Fixed vs. floating rates, Registration of charges with ROC.

RBI norms on bank charges

8 Hours

Unit – V

Other Services

ATM, EFT, e-banking, m-banking, Ancillary businesses: DD, MT, TT, Safe deposit lockers, Credit cards, Debit cards, Smart cards, NEFT/RTGS, Call center.

NEFT

8 Hours

Total: 45 Hours

12MC02

RESOURCE MOBILIZATION – DEPOSITS

3 0 0 3

Objectives:

- Know the banker customer relationship and KYC norms
- Know the basics of low cost, no cost and high cost deposits
- Recognize the importance of nomination and the rules governing non-resident accounts.

Course Outcomes

- Determine the documents necessary for opening of various deposit accounts.
- Able to guide customers in the operation of various deposit accounts.
- Settle the balance in decreased accounts.

Skill sets

- Stipulate the procedures for opening an illiterate persons' account and minors' account.
- Pass and collect Negotiable Instruments following the Negotiable Instruments Act.
- Handle inoperative and decreased accounts following RBI norms.

Unit - I

Opening of deposit accounts

Relationship with customers, Opening of accounts: Individuals, Illiterate persons, Minors, Blind persons, Firms, Associations and Limited Companies.

HUF

8 Hours

Unit – II

Savings deposits

Introduction, Savings Bank account rules, Passbooks/Statement of accounts, Payment of cheques, Collection of cheques, Payment of interest and Service charges, Closing of accounts.

Issue of cheque books

9 Hours

Unit – III

Current Deposits

Introduction, Current account rules, Procedure of return of unpaid cheques, Minimum balance, Service charges, Closing of accounts.

Statement of current accounts

9 Hours

Unit - IV

Term deposits

Introduction, various types of term deposits: Fixed deposit, Monthly income plan, Recurring deposit, Payment of deposit: On due date, Pre-payment, Renewal of deposits, Advances against bank's own deposit.

Base rate

10 Hours

Unit - V

Other Aspects

Nomination facilities, Deceased accounts, Inoperative accounts, Accounts of non-residents: NRE, NRO and FCNR accounts. DICGCI (Deposit Insurance alone).

NRI

9 Hours

Total: 45 Hours

12MC03

RESOURCE DEPLOYMENT – SMALL LOANS

3 0 0 3

Objectives:

- Understand the purpose of lending and elements of income for banks.
- Understand the types of credit facilities and the procedure for granting various types of advances
- Understand the different types of securities and the methods of creating charges.

Course Outcomes

- Manage profitability of banks by working on spread and burden.
- Create charges in respect of single bank and consortium advances.
- Grant retail loans and determine the terms and conditions for the various types of advances.

Skill sets

- Fix reasonable targets for various branches of banks.
- Extend and monitor priority sector advances.
- Handle self liquidating advance for various borrower groups.
- Help the bank in its efforts for financial inclusion.

Unit - I

Introduction to Advances

Lending, Profit maximization: Spread, Burden, Net Interest Income, Net Interest Margin, Net Interest expenses, Non Interest Expenses, Non-Interest income.

Cost minimization

8 Hours

Unit – II

Credit facilities and Securities

Principles of Sound lending, Methods of granting advances, Types of Securities, Modes of creating charges, Floating charge, Consortium lending, credit syndication.

Pledge of shares

9 Hours

Unit – III

Priority Sector advances

Rationale of Priority Sector advances, Targets and sub targets under priority sector advances, Agricultural Lending: Direct and Indirect Finance, Micro and Small enterprises, Weaker sections.

SIDBI

10 Hours

Unit – IV

Bills Business

Introduction to Bills, Bills Purchased (clean bills), Bills purchased (Demand documentary bills), Bills discounting (Usance Bills).

Foreign bills

9 Hours

Unit - V

Retail Lending

Home loans, Educational loans, Credit Cards, Consumer loans, other personal loans, Calculation of EMI: Effect of quantum of advance, repayment period and Interest rates on EMI.

Impact of fixed and floating rates

9 Hours

Total: 45 Hours

References

12MC04

RESOURCE DEPLOYMENT – COMMERCIAL ADVANCES

3 0 0 3

Objectives:

To make the students understand

- the procedure of pre-sanction appraisal and the care to be taken for creating viable advances
- the ways of granting working capital and term loans
- the importance of managing receivables by corporates and mechanism for enhancing the return.

Course Outcomes

- Able to conduct pre- sanction appraisal of large advances.
- Arrive at the working capital requirement of corporates.
- Grant bank guarantees and other non – fund based advances.

Skill sets

- Interpret markets and environment for developing a healthy credit portfolio.
- Apply the appropriate recommendations of the various committees for helping the bank to appraise the customers’ requirement of short term financial requirements.
- Handle factoring and forfeiting services of banks subsidiaries.

Unit - I

Pre – Sanction appraisal

Introduction to Pre-sanction appraisal, Borrower appraisal, Management appraisal, Financial appraisal, Market appraisal, Environmental appraisal.

Pre sanction inspection

8 Hours

Unit - II

Working Capital Finance

Net Working Capital, Operating Cycle Theory, Tandon committee norms: First method of lending, second method of lending and third method of lending, Nayak Committee recommendations.

Gross working capital

9 Hours

Unit - III

Term Lending

Purpose of term loans, Project appraisal: Break even point, Interest Coverage ratio, Debt Coverage ratio, Sensitivity analysis, Fixing repayment schedule, Mortorium period.

Telescopic repayment period

10 Hours

Unit - IV

Non- Fund based advances

Introduction to Bank Guarantees, Types of Guarantees, Financial Guarantees, Performance Guarantees, Deferred Payment Guarantees, Appraisal and Fixing of Guarantee limits, Security to be obtained for non-fund based advances.

Guarantee commission

10 Hours

Unit - V

Factoring Services

Receivables: collection policy by corporates, Factoring services: Role of factors and types of factoring services, forfeiting.

Factoring subsidiaries

8 Hours

Total: 45 Hours

12MC05

EXPORT AND IMPORT FINANCING

3 0 0 3

Objectives:

The students on completion of the course will be able to

- Understand the basics of Uniform Customs and Practices for Documentary Credits (UCPDC)
- Understand the procedure for granting export and import credit
- Know the agencies involvement in promoting export credit and their roles in enhancing the external trade.

Course Outcomes

- Analyze the risks faced by the exporter and guide him to mitigate the risks.
- Grant pre and post shipment credit by adopting suitable safeguards.
- Interpret the provisions of EXIM policy for promoting exports.

Skill sets

- Issue various letters of credit.
- Handle packing credit in foreign currencies.
- Cover the risks of exporters under ECGC policy.
- Promote products in emerging markets.

Unit – I

Introduction to Documentary credits

Documentary Credits, Letters of Credit, Parties to letters of credit, Types of letters of credit, Documents in documentary credit.

FOB, CIF, C&F

10 Hours

Unit – II

Export Finance – Pre-Shipment Advance

Pre-shipment finance, Types of Pre-shipment finance, Disbursements of packing credit advance, Overdue Packing Credit Advances and their follow up, Packing Credit in Foreign Currency (PCFC).

Transshipment

10 Hours

Unit – III

Export Finance – Post-Shipment Advance

Post – shipment finance, Rules governing post-shipment finance, Types of post-shipment finance, Crystallization of overdue export bills and their follow up.

Forward cover

9 Hours

Unit – IV

Imports

Import letter of credit, Rules governing Import credit, Forward exchange contracts for imports, Payment for import of goods.

Technology imports

8 Hours

Unit – V

ECGC and EXIM Bank

Export and Import policy of India, Incentives given by the Government of India for exports, Role of RBI in promoting export credit, ECGC – Types of policies, EXIM bank – its role and their promotional activities.

Foreign Trade shows

8 Hours

Total: 45 Hours

12MC06

MANAGEMENT OF NON-PERFORMING ASSETS

3 0 0 3

Objectives:

The students on completion of the course would be

- Able to know the impact of sickness on industries and ways & means of preventing sickness
- Able to know the procedure for classification of assets
- Able to know the process of recovery of advances and the role of Credit Guarantee Corporation.

Course Outcomes

- Identify the symptoms of sickness and initiate appropriate measures to avoid sickness.
- Classify advances into standard, substandard, doubtful and loss assets.
- Cover the loans under the credit guarantee schemes.

Skill sets

- Take up appropriate post sanction inspection of various units to maintain the health of the portfolio.
- Recover dues in stressed accounts using appropriate legal provisions.
- Draw rehabilitation package for sick units.
- Get the claims settled through Credit Guarantee Corporation.

Unit – I

Sickness and its Prevention

Causes and detection of sickness, Follow up of advances, Post – sanction inspection, ABC norms, Sick Industrial companies Act – BIFR.

Risk averseness

8 Hours

Unit – II

Non-Performing Assets

Introduction to NPAs, Income Recognition, Asset classification: Standard, Sub-standard, Doubtful and loss assets, Provisioning to various Non- Performing assets and write – off of advances.

Gross NPA and Net NPA

10 Hours

Unit – III

Rehabilitation of sick units

Classification of units as viable and non-viable, Guidelines for drawing rehabilitation scheme, revival by Mergers and Amalgamations, Concessions under Income Tax Act for mergers.

Unwillingness to pay and inability to pay

10 Hours

Unit – IV

Recovery of dues

Corporate Debt Restructuring, Civil suits, Debt Recovery Tribunal, Securitization and Reconstruction of Financial Assets and Securities Interest Act SARFASI, Asset Reconstruction Company, Compromise agreements

CIBIL

9 Hours

Unit – V

Credit Guarantee Corporation

Objectives of Credit Guarantee Corporation, the small loans Guarantee scheme, the small loans (SSI) Guarantee Scheme, Accounting practices.

Crop insurance
