Missing Schools	Acharya Bangalore B-School, Bangalore					Bharati Vidyapeeth's Institute of Management Studies and Research, Navi Mumbai					

This is the sixth edition of careers360's ranking and rating of B-Schools. Having pioneering the INPUT-PROCESS-OUTPUT methodology we have created one of the most stable and verifiable ranking and rating system in the country for B-Schools. For the second year in running we have limited ourselves to rank the top 100 schools in the country and rate about 10% of the total universe. The number of public schools have gone up to 45 with the addition of new IIMs and as a result, only 55 private schools have been ranked. ■

The ranking exercise was headed by Dr. Nimesh Chandra with interviews & features done by Shiphony Pavitharn Suri, Abhay Anand, Ashish Jha, Urvasi Dalal and Sreetama Datta Roy. Interpretation of data, analysis and support was carried out by Aeshwarya Tiwari, Kalyani Sharma, Prabir Mohanty, Rohit K Bhaisora, Priyanka Kashyap & Alok Mishra. Design, graphics and image contributions came from Rajesh Chawla, Surander Kumar, Rajesh Dogra & Rahul Karan.

Dr. Devi Singh
Vice Chancellor,
FLAME University

Besides innovation and exploitation, the ability to take risks is becoming extremely important in this dynamic world. Management graduates need to master all these skills, being innovative, being a risk taker and the ability to seek and exploit the opportunities. Management institutes need to understand and focus on building core skills rather than being carried away by fads.

Dr. Manoj Bhide,
Director, Sydenham Institute of Management Studies, Research and Entrepreneurship, Mumbai

Keep pace with economy's positive sentiments

When students choose their career, various factors are taken into account like placement, work environment, well-being. With stagnation in pay packages, and lack of opportunities of being selected in reputed companies have hampered the flow of students towards management. Management courses should provide candidates with modern skill set, communication skills to be ready for absorption in the industry, so the institutes will have to contribute to a better individual. With the improvement in economy, the demand for managers will increase too.

CAT can't be taken as a parameter for the overall candidates aspiring for management education as now many students opt for overseas education too, they travel abroad to study management. Also, due to various foreign universities establishing presence in India, many students opt for that as well.
